**The Mediazone "Oscars" for the Hong Kong business community bestows the prestigious "Most Valuable Enterprise IT Partner Award" on DYXnet Group**

2018-06-04

"DYXnet has earned a reputation among enterprises as a much trusted IT partner -- and this accolade rewards our outstanding achievements"

HONG KONG, June 4, 2018 /PRNewswire/ -- DYXnet Group -- Greater China's leading carrier-neutral network service provider -- has been singled out for glory in the prestigious "Most Valuable Services Awards in Hong Kong" scheme, widely regarded as the "Oscars" for the local business community.

Run by Mediazone, one of Hong Kong's leading English-language media organisations, the awards scheme honoured DYXnet Group in 2013 with the "Hong Kong's Most Valuable Company" and "Greater China's Most Valuable ICT Service Provider" titles.

This year, DYXnet Group won the "Most Valuable Enterprise IT Partner Award" in recognition of pioneering work in the field of enterprise-grade network solutions over some 20 years.

A gala prize-giving ceremony was staged at the Hong Kong Gold Coast Hotel on June 1, in conjunction with a forum on smart city -- all under the theme "Smart Partners of Hong Kong and Mainland China". There to represent DYXnet Group were Hong Kong Sales General Manager Jeremy Cheng and Floria Chan, Group Director of Marketing and Corporate Communications.

During the presentation ceremony dinner, Jeremy Cheng delivered a speech entitled "The Future of Enterprise IT in Greater China" in which he explained how the rapid pace of technology in Hong Kong and mainland China has made "change" an almost daily occurrence in the business world.

Meanwhile, the smart city forum included presentations from sizeable companies such as AECOM, AsiaPay and Philip Morris.

DYXnet Group Founder and CEO Lap Man said: "We are delighted to be singled out for honour by this 'Oscars-for-business' awards scheme and invited to speak at the presentation ceremony. DYXnet has

earned a glowing reputation among enterprises as a much trusted IT partner -- and this accolade rewards our outstanding achievements in growth, innovation and marketing."

He added: "We have been equipping enterprises with high-quality, reliable and scalable service for nearly two decades, and will continue to capitalise on our strong local foothold and nationwide network coverage to expand the breadth and scale of the integrated solutions we tailor to client needs."

Lap Man went on to explain how the Mediazone award was especially encouraging for our team upon the Group's mainland China operating company -- Shenzhen Diyixian Telecom Company Limited -- which became one of the first official members of the influential China Cross-border Data Telecommunications Industry Alliance in March this year.

The Mediazone Group has been engaged in publishing and organising events in Hong Kong since 1999, and is perhaps best known for awards schemes that have been applauding leading local brands for more than a decade.

The Group's editorial committee selects winners based on achievement, contributions to Hong Kong, annual performance and the leadership roles played in various industries, as well as other factors.
